

Welcome to America's Family Foundation Headquartered in Independence, Missouri

We are so pleased to offer children, families and communities the programs and materials available within America's Family Foundation.

The three-fold mission of Larice Music is:

1. To protect the principles of Freedom through education;
2. To maintain the sanctity of the Family through music, word and deed;
3. To sustain America's history and its Christian/Judeo values.

Today, there is so much fear and negative influence targeted at families and our children.

- We believe the positive approach of teaching is the most successful and enduring route to follow;
- We believe scare tactics only breed short-term results and instill paralyzing fear into the hearts of our children, families and communities;
- We believe in the statement, "When ye are prepared, ye shall not fear" and consider the learning of our history, with examples from our ancestors coupled with God's dealings in America, to be of great importance.
- We believe in the future of America and testify that the teaching of our history, enhanced by the learning power of good music, will reap rewarding dividends for our children and families who are the lifeblood of America.

The history and development of this organization encompasses a thirty-year testing experience of ideas, understanding, skills, desires and implementation.

Over several decades, we have experienced the powerful effect good music has in the lives of families and specifically children. We have seen the positive attitudes and results of teaching and singing the wonders of America. This combination of knowledge and music has touched many lives, whether as participants or listeners

We have watched the remarkable growth and development of children who participated in an initial pilot program of *Young Citizens of America*. The current results include high scholastic achievers, Constitutional Lawyers, active citizens, and most importantly, loving parents who are teaching their children about America.

We know the programs and materials of America's Family Foundation will benefit and strengthen our families and ultimately the country. For we believe, "*The strength of a nation lies in the home.*" To this end we dedicate our lives and this work.
